caring for love

iCARE - 2100

Portable Automatic Multi-Function Analyzer

Specifications

6 in 1

Core Technology Liquid Phase iPOT

- Accuracy: Liquid Phase reaction system
- Fast: Only need 3-15 minutes test time. IPOCT system is exceedingly suit for individual test, truly on-demand
- Easy of Operation: no need of professional operation/calibration, fully integrates and automates
- Economic: Low cast without additional consumables & no daily maintenance required
- Intelligent: Uniform Software interface, offering complete interfacing
- Compatibility with data management system
- Unique TIP-Share sample probes Self –Contained and Single-use cartridge

Linearity within Optical Measurement Range:

The linearity within optical measurement range meets the requirement below:

Measuring System	Linearity correlation coefficient
Light transmission system	The maximum light absorbency =2.0, R=0.995
Fluorescence system	Fluorescent intensity within 500-2300, R=0.99
Light reflection system	Reflectivity within 5.5% 80.0%, R=0.99

Data source: 80000 sample test results, 10000 QC test results

- Portable HbA1C Analyzer
- Fast test time: ≤3.5min;
- Providing voice guidance;
- 4.0%~15.0% test range for HbA1c;
- Reflect the control of glycemic before the past 2~3 months

PCH 100

MARKETED BY : FUSION GREEN HEALTH CARE PRIVATE LIMITED

"Krishna" Ground Floor No. 51/6, First link street, Raghavan Colony, Ashok Nagar
Chennai- 600 083. Tamilnadu, India.

Branch Offices : Coimbatore & Madurai
